

Chocolate Fountain Set Up

Please Note: The chocolate fountain CANNOT be used outdoors

LOAD IN

We must be advised of any stairs prior to our arrival.

We need know where to load in: (location of loading docks freight elevators, etc.)

TABLE

Please place one clothed, sturdy table (e.g. six foot rectangle), capable of supporting up to 150 lbs (for medium & large fountains), next to a wall or in a buffet that is accessible to guests on one side. Be advised that the table will get chocolate on it.

ELECTRICITY

Please insure that there is a 120-volt electric outlet capable of supplying 15 amps within ten feet of the table. A three prong plug is fine.

TABLE SET-UP

Please supply:

- 2 containers for the skewers (e.g. rocks or water glasses or container for skewers)
- Paper napkins
- Small plates (e.g. bread & butter plates) for dipping, if desired
- One garbage pan or bus tub placed near or underneath the table for the discarded napkins and skewers

DIPPING ITEMS

If Divalicious is supplying the dipping items we will need a designated area with a table or counter space to set-up, store and replenish the dipping items.

Please supply:

- Platters or plates and/or bowls for dipping items

If the client or venue is supplying the dipping items please let the fountain attendant know who will be replenishing the dipping items.

CLEAN UP

Ideally, we would like to clean the fountain before we remove it from the event. The fountain can be cleaned in a commercial dishwasher or a large sink with hot water.
